TIME MANAGEMENT

Tips

MAKE A PLAN

Make a plan, it could be a to-do list or something else. This will make it easier to divide time.

SET A TIME LIMIT

Make a deadline for work so that the work can be completed quickly and on time.

PRIORITIZE TASKS

Determine the priority scale from the most important. This will make the work easier.

DON'T MULTITASK

Don't multitask. Try to focus on one job until finish.

FOCUS

Focus on the work, don't get distracted, and change the schedule that has been made.

REST ENOUGH

Rest enough. Try not to sleep too late because that will mess up your schedule.
